

**Analyzing the Dynamics of the Pradhan Mantri Mudra Yojana (PMMY) in India**  
**Neelappa Desai<sup>1</sup> Navitha Thimmaiah<sup>2</sup>**

*Abstract*

In April 2015, the Indian government established the ambitious Micro Units Development and Refinance Agency (MUDRA) Scheme. This research paper critically evaluates it. The MUDRA Scheme is crucial to the nation's economy since it promotes micro-enterprises and financial inclusion. The study examines trends, patterns, and scheme performance using economic theories, empirical data, and policy analysis. The framework, goals, and implementation of the MUDRA Scheme are examined. The study uses reliable secondary data from India Stat, government websites, and scholarly journals. The MUDRA Scheme had a major impact on Shishu, Kishore, and Tarun. Uttar Pradesh continuously leads loan accounts, while Tamil Nadu and Maharashtra lead sanctioned and disbursed sums. Economic activities vary by region, with southern states participating more. It also examines the scheme's training and employment results, showing success in Uttar Pradesh, Maharashtra, and Tamil Nadu. Politicians, economists, and stakeholders can learn about the MUDRA Scheme's strengths and weaknesses from the research. This research seeks to optimize and improve the MUDRA Scheme to better achieve national economic goals by examining its intricacies and influence on India's economy.

## **Introduction**

The Micro Units Development and Refinance Agency (MUDRA) Scheme, initiated by the Government of India in April 2015, is a significant endeavor to stimulate the expansion of micro-enterprises and facilitate financial inclusivity. As an economist, it is crucial to thoroughly examine the various aspects of the MUDRA Scheme and analyze its trends, patterns, and performance in the ever-changing Indian economy.

The MUDRA Scheme, which focuses on offering financial assistance to small and micro-businesses, is in line with the wider economic goal of promoting inclusive growth and generating jobs. The plan has observed diverse trends and patterns since its establishment, which demonstrate the changing dynamics of the Indian entrepreneurial ecosystem. This research aims to analyze and examine these trends and patterns, using a research approach that combines economic theories, empirical data, and policy analysis.

The study examine the fundamental elements of the MUDRA Scheme, such as its framework, goals, and methods of implementation. In addition, we will thoroughly analyze the scheme's success over time, evaluating its influence on economic metrics such as employment rates, income distribution, and overall economic progress.

This paper seeks to enhance the current understanding of the MUDRA Scheme by adopting a research perspective. It aspires to provide valuable insights that may be utilized by policymakers, economists, and stakeholders. By conducting a thorough examination of trends and patterns, our goal is to understand the current status of the MUDRA Scheme and offer detailed suggestions for improving and optimizing it to better support the economic goals of the country. As we begin this academic adventure, our goal is to understand the complexities of the MUDRA Scheme and highlight its impact on India's economic future.

## **Objectives**

1. To analyse the trends, patterns, and performance of PMMY in India.

## **Methodology**

The study is based on secondary data, secondary data collected from

The data for the present study is based on secondary sources. Secondary data has been collected from reliable sources such as India stat, government websites, published articles and journals. Year-wise and state-wise women borrowers, number of accounts, and number of women entrepreneurs under the scheme has been depicted by way of table and graphs. CAGR has been used to analyse the State-wise and zone-wise Number of Loan Accounts of Women Entrepreneurs under Pradhan Mantri Mudra Yojana.

**Table-- State/Category-wise Number of Loan Accounts, Amount Sanctioned and Disbursed under Pradhan Mantri Mudra Yojana (PMMY) in India (As on 08.04.2015 to 01.07.2022)**

Source : Lok Sabha Unstarred Question No. 1259, dated on 25.07.2022.

Table shows the Category-wise Number of Loan Accounts, Amount Sanctioned and Disbursed under PMMY. Uttar Pradesh has the highest number of Shishu loan accounts (29,205,235), followed by West Bengal (30,711,122). Tamil Nadu and Maharashtra have the highest amount sanctioned and disbursed in the Shishu category. Uttar Pradesh also leads in the number of Kishore loan accounts (3,765,441), followed by Tamil Nadu and Maharashtra. In terms of the amount sanctioned and disbursed, Tamil Nadu and Maharashtra are prominent in the Kishore category. Uttar Pradesh again has the highest number of Tarun loan accounts (569,079), followed by Bihar. Tamil Nadu and Maharashtra lead in the amount sanctioned and disbursed for the Tarun category. Across all categories, Uttar Pradesh consistently leads in the number of loan accounts, while Tamil Nadu and Maharashtra dominate in the amount sanctioned and disbursed. Southern states like Tamil Nadu, Karnataka, and Andhra Pradesh show significant activity in both the number of accounts and the amount sanctioned across all categories. Some northeastern states like Arunachal Pradesh and Manipur have comparatively smaller numbers but exhibit growth in loan disbursement.

Table presents the number of loans sanctioned to women borrowers under the Pradhan Mantri Mudra Yojana (PMMY) in India from 2015-2016 to 2018-2019. Uttar Pradesh Leads in the number of loan accounts for women across all years, with a significant total of 7,731,759 accounts. West Bengal Shows a substantial number of loan accounts, reaching 10,995,696 in total. Karnataka, Tamil Nadu, and Maharashtra show consistent participation, indicating strong engagement in women entrepreneurship. Telangana has Notable growth in the number of loan accounts, particularly in 2017-2018, although the absolute numbers are relatively lower. Chhattisgarh has Exhibits a significant increase in loan accounts over the years, showing a positive trend in women entrepreneurship. Lakshadweep, Dadra and Nagar Haveli,

Daman and Diu Have relatively lower numbers, possibly due to their smaller populations. The data reveals a substantial growth in the total number of loan accounts for women borrowers, reaching 98,193,283 by 2018. The scheme has shown consistent growth, with the number of accounts increasing from 27,628,265 in 2015-2016 to 33,558,238 in 2017-2018.

Source : Lok Sabha Unstarred Question No. 1259, dated on 25.07.2022.

Table shows the Category-wise Number of Loan Accounts, Amount Sanctioned and Disbursed under Pradhan Mantri Mudra Yojana in India from 2015-2022. Tamil Nadu stands out with the highest overall sanctioned amount across all loan categories, totalling approximately ₹104,945.47 crore. Maharashtra follows closely with an overall sanctioned amount of approximately ₹62,932.09 crore. Uttar Pradesh, being one of the most populous states, has an overall sanctioned amount of approximately ₹71,172.63 crore. Tamil Nadu also leads in the overall disbursed amount, with approximately ₹104,692.52 crore. Maharashtra follows with an overall disbursed amount of approximately ₹62,385.91 crore. Uttar Pradesh, with an overall disbursed amount of approximately ₹69,734.69 crore, showcases effective utilization of Mudra funds to support businesses. In the Shishu category, Tamil Nadu has the highest sanctioned amount of approximately ₹253,911.02 crore. Uttar Pradesh follows closely in the Shishu category, with a sanctioned amount of approximately ₹219,634.38 crore. West Bengal has the third-highest sanctioned amount in the Shishu category, with approximately ₹80,992.57 crore. Uttar Pradesh leads in the Kishore category with a sanctioned amount of approximately ₹60,454.82 crore. Maharashtra follows in the Kishore category, with a sanctioned amount of approximately ₹53,178.27 crore. West Bengal holds the third position in the Kishore category, with a sanctioned amount of approximately ₹63,099.53 crore. Uttar Pradesh also leads in the Tarun category with a sanctioned amount of approximately ₹45,298.19 crore. Tamil Nadu follows in the Tarun category, with a sanctioned amount of approximately ₹34,561.07 crore. Maharashtra holds the third position in the Tarun category, with a sanctioned amount of approximately ₹48,000 crore. States with larger populations, such as Uttar Pradesh and Tamil Nadu, tend to have higher sanctioned and disbursed amounts, reflecting the potential impact on a large number of businesses.

Table---Allotted and Amount Sanctioned to Member Lending Institutions (MLIs) under Pradhan Mantri Mudra Yojana (PMMY) in India (2015-2016 to 2021-2022) (Rs. in Crore)

Year	Target	Sanctioned Amount
2015-2016	122188	137449
2016-2017	180000	180529
2017-2018	244000	253677
2018-2019	300000	321723
2019-2020	325000	337465
2020-2021	350000	321759

Source : Lok Sabha Unstarred Question No. 1259, dated on 25.07.2022.

Table shows the targets and sanctioned amounts of the Pradhan Mantri Mudra Yojana (PMMY) in India from 2015–2016 to 2021–2022. In the year 2015, the target was 122,188 crores, and the sanctioned amount was 137,449 crores. The year witnessed an achievement surpassing the set target, indicating an initial positive response to PMMY. The target was 180,000 crores, and the sanctioned amount was 180,529 crores in 2016–17. In 2017-18, the target was 244,000 crores, and the sanctioned amount was 253,677 crores. The target was 300,000 crores, and the sanctioned amount was 321,723 crores in 2018–19. In 2019–2020, the target was 325,000 crores, and the sanctioned amount was 337,465 crores. In 2020–21, the target was 350,000 crores, and the sanctioned amount was 321,759 crores. The target was 300,000 crores, and the sanctioned amount was 339,110 crores in 2021–2022. The consistent trend of surpassing or meeting targets indicates the success of PMMY in facilitating financial support for microenterprises.

Source : Lok Sabha Unstarred Question No. 1259, dated on 25.07.2022.

The table provides the state-wise number of loan accounts under the Pradhan Mantri Mudra Yojana (PMMY) in India (April 8, 2015, to July 2022). With 33,539,755 loan accounts, Uttar Pradesh leads in the highest number of Mudra loans. Maharashtra follows closely with 28,313,573 loan accounts, showcasing a significant presence of micro-entrepreneurs availing of Mudra loans. Tamil Nadu ranks third with 42,199,492 loan accounts, emphasizing the widespread utilization of Mudra loans in the state. Lakshadweep has the lowest number of loan accounts, with 6,465. Daman and Diu, with 6,462 loan accounts, also have a relatively low number. Sikkim, with 122,852 loan accounts, has a modest number compared to larger states. The stark contrast between states with the highest and lowest loan accounts highlights regional disparities in economic activities and demand for Mudra loans. Loan accounts vary significantly across states, reflecting regional differences in demand and economic activities. Populous states such as Uttar Pradesh, Maharashtra, and West Bengal contribute significantly to the overall number of loan accounts.

Table shows the state-wise number of candidates trained, oriented, and reported placed under the Pradhan Mantri Mudra Yojana in India (as of December 31, 2022). Uttar Pradesh demonstrates the highest reported placements, indicating the success of the training programs in facilitating employment opportunities. In Maharashtra, Trained/Oriented was 1,217,288 and Reported Placed was 80,851. Maharashtra, with a substantial reported placement, showcases effective outcomes from training initiatives. Tamil Nadu ranked third, with Trained/Oriented at 759,666 and Reported Placed at 172,298. Tamil Nadu exhibits a significant reported placement, reflecting successful coordination between training and employment opportunities. The lowest trained was 270 in Lakshadweep. In Dadra and Nagar Haveli and Daman and Diu, trained/oriented was 10,134 and reported placed was 2,817. The reported placement in this union territory is moderate, suggesting potential areas for improvement in connecting trained individuals with job opportunities. The number of people trained/oriented in Goa was 10,065 and the number of people placed was 1,105. These states exhibit successful outcomes, suggesting effective coordination between training initiatives and job placements.

Source : Lok Sabha Unstarred Question No. 964, dated on 27.06.2019 & Ministry of Finance, Govt. of India.

Table shows the Number of Loan Accounts and Amount Sanctioned of Shishu, Kishore and Tarun for MSME under Pradhan Mantri Mudra Yojana (PMMY) in India (2016-2017 to 2021-2022). The number of Shishu accounts increased from 364.98 lakh in 2016-2017 to 382 lakh in 2021-2022. The amount sanctioned for Shishu loans rose from Rs. 85,100.74 crore in 2016-2017 to Rs. 115,749 crores in 2021-2022. Kishore accounts grew from 26.64 lakh in 2016-2017 to 95 lakh in 2021-2022. The amount sanctioned for Kishore loans also showed an upward trend, increasing from Rs. 53,545.14 crore in 2016-2017 to Rs. 120,972 crores in 2021-2022. Tarun accounts started at 5.39 lakh in 2016-2017 and reached 9 lakhs in 2021-2022. The amount sanctioned for Tarun loans increased from Rs. 41,882.66 crore in 2016-2017 to Rs. 70,469 crores in 2021-2022. The overall number of accounts across all categories increased from 397.01 lakh in 2016-2017 to 486 lakh in 2021-2022. The total amount sanctioned for MSMEs under PMMY rose from Rs. 180,528.54 crore in 2016-2017 to Rs. 307,190 crores in 2021-2022. The Kishore category experienced substantial growth in both the number of accounts and the amount sanctioned. The Tarun category also showed growth, though at a relatively slower pace compared to Shishu and Kishore.

Table shows the region-wise number of loan accounts, amount sanctioned, and amount disbursed under the Pradhan Mantri Mudra Yojana (PMMY) in India as of July 1, 2022. The Hindi Belt region has the highest number of loan accounts in all three categories: Shishu, Kishore, and Tarun, totaling 118,347,114. Northeast India has a comparatively smaller number of loan accounts, but the figures are significant in the context of the region. Northern India demonstrates a substantial number of loan accounts, particularly in the Shishu category. The region has notable amounts sanctioned and disbursed, contributing significantly to the overall numbers. Southern India exhibits a high number of loan accounts, especially in the Shishu category. The region shows substantial amounts sanctioned and disbursed, contributing significantly to the national total. Western and Central India contribute significantly to the overall number of loan accounts. Eastern India has the second-highest number of loan accounts, particularly in the Shishu category. The overall data for India indicates a vast outreach of the PMMY scheme, with a total of 306,215,047 loan accounts. The table highlights regional variations in the utilization of the PMMY scheme, with some regions showing higher participation and amounts disbursed.

**Table - Category-wise Number of Loan Accounts, Amount Sanctioned and Disbursed under Pradhan Mantri Mudra Yojana (PMMY) in Karnataka (As on 08.04.2015 to 01.07.2022) (Rs. in Crore)**

Source: Lok Sabha Unstarred Question No. 1259, dated on 25.07.2022.

Table shows the Category-wise Number of Loan Accounts, Amount Sanctioned and Disbursed under PMMY in Karnataka. Karnataka has a substantial number of Shishu loan accounts, reaching 28,818,849. Karnataka demonstrates a notable number of Kishore loan accounts, totaling 4,810,522. Karnataka has a considerable number of Tarun loan accounts, reaching 657,276. Karnataka contributes significantly to the overall numbers in India, particularly in the Shishu and Kishore categories. The amount sanctioned and disbursed in Karnataka, while substantial, is a fraction of the national total, emphasizing the widespread impact of PMMY across the country.

## Conclusion

The study analyzes the Micro Units Development and Refinance Agency (MUDRA) Scheme, a key Indian government initiative to promote micro-enterprises and financial inclusion. This study seeks to comprehend the MUDRA Scheme's trends, patterns, and performance in the dynamic Indian economy by carefully examining its framework, objectives, and implementation techniques. Since April 2015, the MUDRA Scheme, which promotes inclusive growth and job creation, has seen varied trends. Using secondary data from India Stat, government websites, published articles, and journals, the research is rigorous. Using tables and graphs, the study analyzes year-by-year and state-by-state data using CAGR to identify trends.

The study found that MUDRA supports Shishu, Kishore, and Tarun micro-entrepreneurs. Uttar Pradesh leads in loan accounts, while Tamil Nadu and Maharashtra top in sanctioned and disbursed amounts. Southern states are prominent in the study's economic activity fluctuations. MUDRA Scheme's impact on women entrepreneurs shows a significant increase in loan accounts. The scheme's ability to fund microenterprises is shown by its consistent overperformance.

The results shows that in Uttar Pradesh, Maharashtra, and Tamil Nadu for the scheme's training and employment. The research shows that training programs help bridge the gap between skill development and job placements. Overall data for India shows the scheme's nationwide reach, the report says. It recognizes that MUDRA Scheme participation and impact vary by region.
